

ASSET CONTROL PROGRAM

FIELD TEK

MANAGE YOUR GOALS

Field Tek offers a comprehensive Asset Management Program tailored for soccer clubs. We meticulously inventory all your soccer goals, attaching Goal ID labels. These labels are linked to detailed worksheets, providing instant access to crucial information such as: Model, Location, Maintenance History & more.

PROTECT YOUR INVESTMENT

Soccer goals represent a club's most significant investment. Utilizing Field Tek ensures proper equipment maintenance. Damage reporting is simplified, and, most importantly, it guarantees the safety and readiness of all equipment.

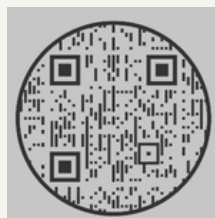

Club officials and coaches can readily report any damage or required repairs via QR codes posted on all the club's soccer goals.

KNOW YOUR EQUIPMENT

All maintenance and repair information will be documented and recorded in a shared document accessible to Club Officials.
